Code Smell 33

Tags ▾

Search by name... 🔍

Code Smell

Boolean checks should not be inverted

Code Smell

Unused local variables should be removed

Code Smell

Local variable and function parameter names should comply with a naming convention

Code Smell

Boolean literals should not be redundant

Code Smell

Class names should comply with a naming convention

Code Smell

Method names should comply with a naming convention

Code Smell

Track uses of "TODO" tags

Code Smell

Track lack of copyright and license headers

Code Smell

"match" statements should not be nested

Code Smell

Control flow statements "if", "for", "while", "match" and "try" should not be nested too deeply

Code Smell

"if ... else if" constructs should end

Unused function parameters should be removed

Analyze your code

Code Smell

Major ?

unused

Unused parameters are misleading. Whatever the values passed to such parameters, the behavior will be the same.
